PRESBYTERIAN CHURCH SERVICES REPORTED

(Communicated)

We are glad to welcome our pastor and his good wife again after their vacation, visiting the expositions at San Francisco and at San Diego, and attending meetings of the presbytery and synod at San Diego.

Yesterday's services were not marked by any special features. There was the usual good sermon and good singing. The congregation was not large.

The addition to the church is nearing completion and when that is done we expect all our friends to come and bring their friends.

COUPLE ON TRIAL ON INFANTICIDE CHARGE

Vacillos Kastanos and his wife are on trial at Elko, charged with attempting to murder their newborn baby by throwing it from a Southern Pacific train.

The alleged crime was committed last July near Montello. The baby miraculously escaped injury, and is carried to the courtroom at each session by the mother, who appears to take a strong maternal interest in the child.

NOTICE

All members of Tonopah lodge, No. 651, Fraternal Brotherhood, and visiting members are requested to be present at 1 O. O. F. hall Saturday evening, October 30, to meet Supreme Vice President Morgan Duke.

By order of the president,
ADA LEONARD, Secretary.

HALLOWEEN MASQUE BALL

The masque ball given Saturday evening in Miners' Exchange hall was a success. Prizes were awarded to Mrs. Frank Meyers, Mrs. Al Vincent, Mrs. Robert Pohl, Mrs. J. Campbell, Jack Whitman and a group of four representing "Sweet Sixteen."

Sore Eyes
Granulated Eyelids.
Eyes inflamed by exposure to sun, dust and wind quickly relieved by **Murine Eye Remedy**. No Stinging. Just Eye Comfort. At Your Druggist's 50c per Bottle. **Murine Eye Salve** Tubes 25c. For Sale at the Eye Free Press or at **Murine Eye Remedy Co., Chicago**

BUCKEYE-BELMONT IN FAIR APPEARING ROCK

DRIFT WILL BE RUN EASTERLY TO PICK UP HALIFAX VEIN IF IT CROSSES LINE

Developments in the Buckeye-Belmont are being viewed with interest in view of the strike that was made in the Halifax recently, at a point so near the Buckeye line that the drills can be heard working.

The latter property has recently been concentrating efforts on the 900-foot level and is working in a well defined vein carrying low values. It is the theory of General Manager Balliet that the 1200 level is too low to catch the Halifax vein on its depth, but by continuing the drift it may get it on the trend, as the Buckeye has fully a thousand feet more to run on the Halifax sideline before getting out of its territory.

One of the most encouraging developments of the past few days is the finding of spar and quartz in the vein which carries bronze pyrites, as well as specks of black and blue sulphides, evidencing the enrichment of the rock and the approach to commercial values. The Buckeye has been in operation for a number of years and has not drawn a cent out of the city, the stock not being listed, but being voluntarily assessed by its owners in the east.

AUTO ASSOCIATION HOLDS A MEETING

TOURISTS WILL BE GIVEN THE GLAD HAND AND SUPPLIED WITH GUIDANCE

The Tonopah Automobile association is about to revive its activities. A meeting, which was called for Saturday evening in H. E. Epatine's brokerage office, was attended by some of the most active members of the organization and an hour was spent in considering plans for getting into the game again. It was shown that there is a goodly surplus in the treasury, sufficient to make it unnecessary to collect any dues from the members for 1915.

The association will get busy at once and be prepared for the 1916 season. One of its principal duties in the near future will be the welcoming of tourists and supplying them with logs and maps and other information. Later it will take up the matter of better roads and the pulling of the Lincoln highway to this route if possible. Another meeting of the association will be held in the near future.

UMATILLA DRILL HOLE IN WEST END RHYOLITE

Interest in Umatilla stock has developed since the drill hole pierced unmistakable West End rhyolite, which is the hanging wall formation of a number of veins in that portion of the district. The drill is making slow progress at present, on account of a sand flow, which has necessitated the cementing of the hole. The bore is now down 510 feet, or 1710 feet from the surface.

GOOD QUARTZ FOUND IN TONOPAH BONANZA

The shaft in the Tonopah Bonanza mine, which is being sunk with three shifts, is still in the fissure formation, which is showing considerable quartz, carrying low values, with gold predominating. Pannings give good looking concentrates, with an occasional tiny fleck of native metal. The shaft now seems to be getting into the foot-wall of the fissure and has reached a depth of 980 feet.

WINS TWENTY AWARDS AT SAN DIEGO EXPOSITION

Now that the prizes and medals have been distributed by the jury of awards at the Panama-California exposition, the records show that the Standard Oil company (California) has carried off twenty of the highest awards, which constitutes about all in the petroleum exhibits.

"Nineteen of these awards," says G. M. Rose, the local agent of the Standard, "are for various products and one for our general exhibit of petroleum and its products. Of the nineteen awards nine are grand prizes and ten are gold medals. The grand prizes on our automobile products, Zerolene oils and Red Crown gasoline, are especially appreciated as they bear out the decision of the jury of awards at the San Francisco exposition, which awarded these products highest honors in active competition with other oils and gasolines. All are the highest awards in their class, however, and we feel justly proud of our exhibit and our products, particularly that they dealt with one of California's most important industries."

THE REPORTER APPEARS

The Saturday Reporter, an eight-page weekly paper, has made its appearance at Sparks. It has a liberal advertising patronage on its first showing and contains considerable local news in addition to four "patent" pages. The Bonanza sincerely hopes that it will escape the infantile ill which send so many new publications to the newspaper graveyard.

NEITHER WALL OF THE HALIFAX SHOWING

SECOND SHIPMENT IS ABOUT READY TO GO OUT FROM THIS PROMISING DISCOVERY

Steady progress is being made in sinking the Halifax mine from the 1200 level. Mr. Sherwin is having six feet removed, all of which is ore of excellent grade. Neither wall is now in sight. The work on the drift is progressing, but the turn has not yet been made to reach the ore. The showing is pronounced better than at any time since the strike was made, but the people in charge and the miners are loath to make statements, fearing that they might incite a movement in the stock that later would not prove to have been justified. In other words, the intent is to get the property well opened up and assured of permanency before making any positive statements.

The first shipment, it is understood, gave excellent returns. Another is about ready and will probably be sent to mill tomorrow or Wednesday. No work is now being done toward drilling for air connection, but it will doubtless be resumed, as soon as affairs are shaped around at the scene of the strike.

HIGH SCHOOL ROUTS TONOPAH ALL STARS

GAME IS WON BY THE DECISIVE SCORE OF THIRTEEN TO SIX

In a real fast and furious game of football Saturday afternoon the team of the high school routed an all-star town team by the decisive score of 13 to 6. The town team was not well organized, but the backfield was an experienced one, and under the leadership of the quarterback, Tommy Gibbons, worked very effectively. Most of the town team gains were made with furious line bucks by Lydon and heavy, experienced men. The single touchdown was made in the third quarter by Walker, who recovered a punt on the thirty-yard line.

Zeni, star halfback, proved the point winner for the high school, he being directly concerned in each score. In the first period Zeni broke through a line of tacklers thirty yards for a touchdown. He also kicked the goal. The high school second score was made within three minutes of the close of the game when a series of line bucks that gained only a yard apiece ended by Zeni sifting through squarely between the posts.

"Kid" Williams started as halfback for the town team, but his mother called him during the first quarter. His was the only home run scored in the game.

As an indicator of the present strength of the high school the game was a distinct success. All their plays were smooth, well-executed, and cleverly played by quarterback Bowler. The backfield—Ryan, Pollard, Zeni and Bowler—is a strong one. On heavy plays Ryan is a hard hitter, and a fighter, on open plays, Zeni is slippery and fast. The high school line showed vast improvement also, holding the heavier town team down in excellent style.

M. J. Conover refereed. Ray Cross umpired, Ellsworth Bennett and Austin James kept time, and Statesbury acted as head line-man.

MRS. MARY TODD DIES AT RENO

Mrs. Mary Todd, wife of Andrew Todd, a Carson City business man, died at Reno yesterday after a short illness. Mrs. Todd was an old resident of Empire and went to Reno a few days ago for medical treatment. She is survived by two sons besides her husband. Deceased was 62 years of age. No details were available last night about her illness or the arrangements for the funeral. The funeral will probably be at Empire—Carson News.

NO EXCHANGE TOMORROW

Owing to tomorrow being San Francisco day at the Panama-Pacific exposition, there will be no session of the exchange there, but they will be open in the east.

For results, advertise in the Daily Bonanza.

HOLIDAY OBSERVED

Yesterday was the fifty-first anniversary of the admission of Nevada to the union, but as the date fell on Sunday, today was celebrated. Banks, courts and public offices are closed and flags are flying, but otherwise business is progressing as usual.

STRANGE WOMAN COMMITS SUICIDE AT IMLAY

A woman named Mrs. Daisy Pitts, 29 years of age, committed suicide in the Q. T. saloon at Imlay at 3 o'clock Friday morning by shooting herself in the head with a revolver. The victim was a stranger in Imlay, having arrived there only last Monday from Susanville, Cal., says the Silver State.

An inquest was held by Justice Copley, the coroner at Imlay, and the body was brought here for burial by Perry Carlson of the Ayers undertaking establishment. A wire has been sent to Susanville making inquiries as to the woman's friends, and the remains will be held here awaiting an answer.

AMUSEMENTS

BUTLER THEATER

The feature at the Butler theater tonight will be "Her Great Match," Clyde Fitch's five-act drama featuring Gail Kane, the beautiful and brilliant dramatic actress, who won such notable laurels in the stellar roles in "Seven Keys to Bald Pate" and "The Miracle Man," two of Broadway's biggest successes. The talented star is supported by a selected cast and presents five acts of intense human sentiment and gripping situations in powerful fashion. At the time Miss Kane entered the field of motion pictures it happened that just at that moment there was no vehicle ready or in process of preparation which fitted Miss Kane's distinctive talents. After several stories had been examined, someone suggested "Her Great Match," the famous dramatic novel by Clyde Fitch, which deals with the story of a beautiful American girl for love of whom a prince sacrifices his title to a throne. The preliminary reel will be Pathe Weekly—always interesting, which will be run ahead of the feature.

Tomorrow, "Rule G," a Paramount railroad story, featuring Irene Fenwick, prepared by Rufus Steele, from his article "Keeping John Harleycorn Off the Train," which created such wide comment in the Saturday Evening Post. Preliminary reel, Paramount Treval pictures—Adv.

White Rose Flour Day

Monday, November 1st, "Special Sale." For one day only, you can buy White Rose Flour from any grocer in Tonopah for two dollars (\$2.00) per sack, 48 lbs. net weight. Buy all you want. Carload just arrived. Quality is guaranteed. Remember this is a Nevada product and that you live in Nevada. See your grocer and place your order now. Monday, November 1st, is the day.—Adv-02813.

Notice to the Public

The undersigned, having on this day, October 26, 1915, purchased from Harry Hoffman the Hoffman bar, formerly known as the Original Package, here by notifies the public that he will not be responsible for any obligations entered into by his predecessors in interest.</
